JBR 2016 & up Miata ND/RF Battery Hold-Down Installation Instructions

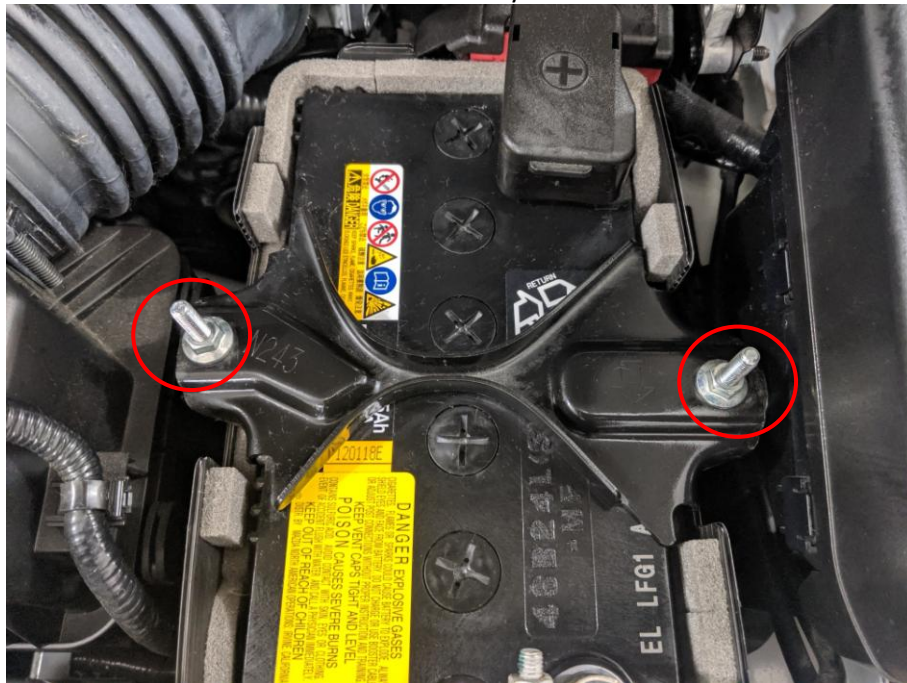

Tooling:

- ✓ Ratchet wrench
- ✓ Short extension
- ✓ 10mm deep socket

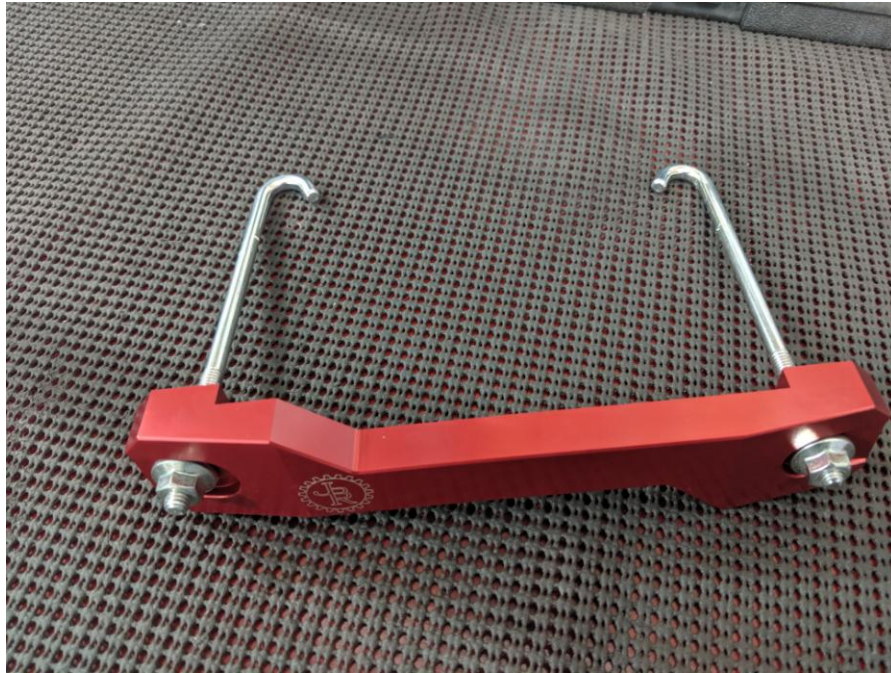

Parts List:

- ✓ 1 Battery hold-down strap

1. Loosen but don't remove the 2 10mm nuts holding the OEM battery hold-down strap in place.
2. Swivel each J-hook and remove the entire assembly from the vehicle. Now remove both nuts.

3. Install the J-hooks into your New JBR Battery Hold-Down Strap as shown.

4. Install the assembly back in the car and swivel the J-hooks in place to catch the hoops at the base of the batter tray.

**Congratulations!! You've now completed the installation of
your new JBR Battery Hold-Down Strap!!**
